User Interface Enhancements

March 2019

# Key2Purchase.com User Interface Enhancements

The Key2Purchase.com user interface, designed in the early 2000's, will be enhanced on March 2, 2019. The goal of the enhancement is to modernize the user interface and make it more mobile-friendly. Although page layouts, navigation and some field labels will be improved, the underlying features and functionality of Key2Purchase.com will not be altered.

## Overview:

Updates to the user interface will cover the following themes:

1. General Navigation
2. Changes in Field Labels
3. Search Criteria
4. Page Accordions
5. Page Sliders

**Note: The options that you see on provided page samples may vary from your own view based on your commercial card program setup and user permissions within Key2Purchase.com.**

## 1. General Navigation

The main navigation menu of Key2Purchase.com will be moved from the right side of the page to the left side. The size of the page elements has also increased, making the pages easier to read.

## 2. Changes in Field Labels and Layout

Fields have been relabeled and options have been consolidated within the Key2Purchase.com site to simplify and clarify options available within the site. Changes within the navigation menu include:

Legacy Field Label	New Field Label
Admin	Administration
Security Manager	Security
Payables	Payables
Report Studio	Reports
Card MGMT	Cards
Transaction Maint	Transactions

A 'Home' option has been added. Users can click this option from any page within the system to navigate back to the main Key2Purchase.com page.

### Legacy Layout

### New Layout

Some options within the features of the system have also been consolidated. For example, the Card MGMT option of Card Management and Card Maintenance has been consolidated under Cards – Card Maintenance. Additional field label changes and consolidations can be found throughout the various modules of Key2Purchase.com.

#### Legacy Layout

#### New Layout

### 3. Search Criteria

The search criteria that is provided within each module of Key2Purchase.com has been enlarged for easier viewing and each of the search criteria options have been given field labels.

#### Legacy Layout

Account Search Criteria: Select search criteria and click on Search for results.

Hierarchy:  at level KEYBANK TEST 3456789

Actions	Search Term	Filter Type	Value
	Account Status	Equal To	Open

Account Number  Equal To

#### New Layout

##### Cards

Hierarchy:

 at level KEYBANK PCARD PILOT-AP

Category:  Constraint:  Search term:

Account Status Equal To:

^ Collapse

#### 4. Page Accordions

Accordions have been introduced for those pages that contain large amounts of information to display only specific portions of a page at a time. Each section within a page can be viewed or hidden by clicking on the corresponding arrow to the left of the title. If a user prefers to view all page elements at once, the user can select 'Expand All.'

#### Collapsed View
