Tailored, flexible invoice delivery

KeyTotal AR® Invoice, powered by Billtrust Quantum,® automates and accelerates invoice delivery for you; all while providing invoices in the format and channel your customers prefer. Leverage a single platform to send customer-tailored invoices through various channels – whether by email, print, fax or through an AP network.

How it works – invoice delivery options

Print & mail delivery

- Reduce invoice delivery time – automatically print and mail from the facility closest to your customer.
- Reduce costs of postage and processing – customizable rules allow you to bundle multiple low-dollar invoices for mailing.
- Managed eAdoption – helps you shift your customers from printed invoices to electronic.

Email delivery

- Clean branding – branded, custom emails delivered to your customers automatically.
- Customizable attachments – attach PDF invoices, as well as CSV, QuickBooks® and other accounting system file types based on individual customer preference.

Visibility & oversight

- Research customer invoices and history – use a variety of search criteria, view exact copies of PDF invoices. Conveniently resend invoices to customers with one click.
- Processing and delivery tracking – know the status of each and every invoice, whether sent by paper through the U.S. Postal Service or sent electronically.
- View dashboards and reports – instant insight into your entire invoice delivery process.
- Customize dynamic messaging – improve communications with your customers.

Key takeaways

Reduce invoice delivery time and costs.

eAdoption:
Help drive customers to electronic invoice delivery and payment.

Tailored, branded, multichannel invoice delivery.

Integrations

- AP Portal Integration – automate delivery to leading AP Systems.
- Integration with KeyTotal AR Payment Portal – quick, secure enrollment direct from email and easy online payments.

More than an invoice delivery system

KeyTotal AR enables you to facilitate 100% of invoices and streamline your receivables processes – reducing costs and helping lower days sales outstanding (DSO). You'll also gain visibility into your invoice-to-cash processes, allowing you to optimize your processes based on industry best practices. Watch the efficiency of your accounts receivable improve while providing your clients the diverse mix of electronic invoicing and payment options they want.

Why choose Key?
